To Whom It May Concern:

Approximately 5 months ago Coast To Coast General Contractors was retained to perform a concrete restoration project on our parking garage. The decision in choosing them did not come lightly because the Arlen House had just gone through an unpleasant experience with another contractor on a different project phase. So, after vetting multiple contractors to be sure we were making the right decision, we decided on Coast To Coast.

I speak for both management and The Board of Directors when I say we have not regretted the decision for one minute. Coast To Coast has been nothing but a pleasure working with. Their Professionalism and cooperative nature was very refreshing especially because of the previous experiences we had.

Keeping with their promises Coast To Coast's ownership together with their management attended practically every coordination meeting held. They helped us greatly by working closely with us and being mindful of our budget.

The project is now coming to a close but we expect to do more work in the near future. We would certainly place Coast To Coast before any others to be the contractor to perform this work. We would definitely recommend them for any condominium, as I am certain they would be just as satisfied as we are.

Please do not hesitate to call me, if I can be of additional assistance.

Sincerely,

William Arcila
AHE - Manager
